

SHADOW ART

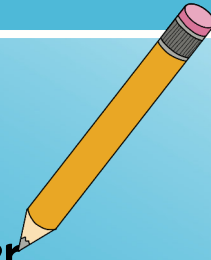

You'll need

A source of light

A piece of paper and a pencil for each player

Some things with interesting shapes

Where to start

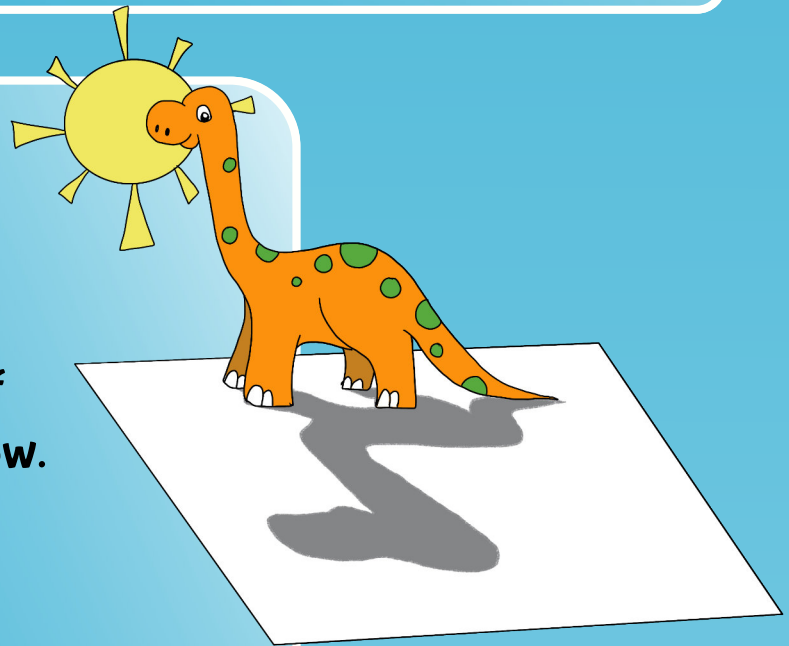

Find a sunny spot, a lamp, or a torch.

Put something on your piece of paper so you can see its shadow.

Draw around the outline of the shadow on the paper.

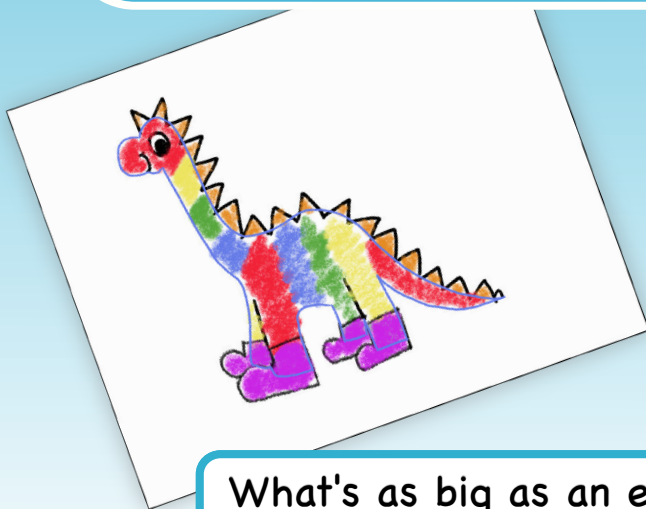

Now, add details. Colour it in. Use it as a base to create your own drawing.

It can be anything!

Once you start looking around, you'll find all sorts of things with interesting shapes.

What can you turn them into?

What's as big as an elephant but weighs nothing?
An elephant's shadow!
